

28 DEC 1981

MEMORANDUM FOR: See Distribution

FROM:

[redacted]  
Chief, Building Planning Staff, OL

SUBJECT: Presentation - High Reliability Utility  
Systems [redacted]

1. A contract is in progress with [redacted] to investigate alternative utility system designs that may be applicable to the New Building Program. The emphasis of the study is on development of a cost versus system availability curve as an aid to decisionmaking. The study was initiated in October and is scheduled for completion in April. [redacted]

2. At 0930 on 12 January 1981, [redacted] will present a "mid-point" briefing on technical developments to date. The presentation will be held in Room 6E13 Headquarters. The information presented should be of interest to those engaged in facility design and electronic system development. [redacted]

3. If you are interested in attending, please contact [redacted]

Distribution:
